

POWER TO THE PEOPLE!

A Tree fell on a power line in the old camp road last Tuesday at about 10:30PM. All electrical appliances, including the telephone service, were inoperative for 2½ hours. Were it not for the courageous and clear thinking action of Pete Cooper and the Power Company things would still be pretty dim.

Take me somewhere
Morning Star

Take me where the grass is green and
the beaches are sandy,

Show me Morning Star, that the world is
not a collection of crackerbox
houses and token trees,

Take me where the wind blows against my
face like a silken scarf,

Take me where the leaves crunch like
empty peanut shells,

Take me somewhere
Morning Star
