DINING LODGE CHANGE:

Due to the suggestions of several Scoutmasters, there will be a noticeable change in the lunch - time dining lodge program. We will be eliminating the traditional song as an experiment to help the flow of a "cafeteria style" meal. This will enable all scouts to finish their meal without being interrupted by a song. Thus, troops may leave the dining lodge once they are done with their meal. We hope those people who enjoy the spirit developed by such songs will join us in further attempting to develop troop and patrol spirit, instead of just "camp spirit". Camp spirit is nothing more than the spirit combined by individual scouts in troops and patrols. As B.P. set up the scouting program, "The main object of the Patrol System is to give real responsibility to as many boys as possible..." We would like to see the Spirit of Ma-Ka-Ja-Wan develop as the spirit of the scouts, for the scouts!
